

Compensation Status Report

Client: Minimise by NEEW Ventures GmbH

Reporting Period: 1/1/2018 - 4/10/2024

Compensations Ordered	Quantity to be Collected	Collected to Date	Recycled to Date
50,000	50,000	50,500	0

Minimise by NEEW Ventures GmbH has purchased Closing the Loop's services to compensate for the impact of their devices following Closing the Loop's processes and procedures. This report is being issued as an update on the current status of the waste compensation process. The batches of waste collected on behalf of Minimise by NEEW Ventures GmbH are listed on the detail page with information on their origins and current status.

In line with internationally recognized guidelines, conversion factors are used for the compensation of devices other than mobile phones. These guidelines dictate that one laptop must be compensated with nine mobile phones and one tablet must be compensated with three mobile phones. The guidelines can be found here: <https://tcocertified.com/tco-certified-edge-e-waste-compensated/>

BATCH STATUS DEFINITIONS

COLLECTED

The material has been purchased from Collectors by the Local Partner

PACKAGED

The batch has been sorted and readied for export

SHIPPED

The batch has been exported from the origin country. Note - this status may also indicate that recycling is underway

RECYCLED

The associated batch has been fully recycled

Information on Batch Report

Please note that the Batch Quantity total differs from actual order quantity. This is due to a process where additional phones or batteries are added to an order to ensure a minimum of 1-1 compensations and offset any operational deviations.

Some batches may be missing data fields. Historically not all data fields were recorded as we developed our processes.
